

**GC ELECTRONICS***Company*

400 SOUTH WYMAN STREET • ROCKFORD, ILLINOIS 61101 • USA • PHONE 968 9661, AREA CODE 815 • TELEX 025712

Gentlemen:

Thank you very much for your recent inquiry concerning the Audiotex Solid State Modules as advertised in Radio-Electronics.

Attached is a brochure fully describing the New "Electronic Building Blocks".

By checking with your local wholesales Electronic Wholesales Distributor, you should be able to purchase Audiotex Modules immediately from their stock. Always specify Audiotex Modules, as they are the only easy to install (No soldering necessary) units that carry permanent installation directions on the Module itself.

In the event you are unable to obtain the desired Modules locally, use the attached order blank for direct shipment from Rockford.

Very truly yours,

GC AUDIOTEX

D. W. Haller

Sales Administrator

I enclose \$_____ in Money Order for the following Audiotex Modules, plus 50¢ each for postage.
